Distance & Midpoint Partner Activity

Find a partner. Work with your partner to find the distance and midpoint between your points, showing all work. Graph your ordered pairs to see if your answers make sense. Then repeat with two other partners.

My Ordered Pair:

Partner's Ordered Pair	Distance Between Points	Midpoint Between Points	Graph
			
			
			

Challenge: Find another partner. This time, your partner's ordered pair is the MIDPOINT between your point and another ordered pair. Find the missing endpoint.

Partner's Ordered Pair	Missing Endpoint
